DETAILED ACTION

Allowable Subject Matter

Claims 103-105 are allowed.

The following is an examiner's statement of reasons for allowance: the stent-graft having a stent with a polymer coating on the outer surface adhered to a graft formed of a plurality of concentric, helically wrapped layers of PTFE tape which has a width less than one inch was found to be novel. The prior art did not teach the combination of using a polymer coating with the stent and using multiple layers of PTFE tape.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
